

First of all, I would like to thank you for giving me such a new and exciting experience this summer. This kind of atmosphere was good for me, as a dancer. It brought many new ideas in a whole different light. It was wonderful to be able to use my movement with the other available opportunities, sound, imagery, lighting, etc. I really liked the problems we had to solve because it made me think about myself, not as a dancer, but as a person evolving materials together. It would have been nice to have more people, but I think the 3 of us worked well together & blended together using our talents to create a nice bond & atmosphere. Choreography came a lot easier to me by being able to combine all these materials as a whole. Life goes beyond much more than the one talent or art we possess and I think everyone needs to ~~experience~~ experience an excitement, such as this with Syzygy Theatre (David + Suzanne). I see now all these hidden talents I possess and

them in my life. THANK YOU AGAIN  
and hope to be able to experience  
this in the future with you both.
